

Management and HR Transfer

Unable to load contents of IFRAME at this location in the original document. See original HTML document and notify an administrator.

A business administration degree focuses on business management and prepares students to work in the world of commerce.

Generally, business administration coursework includes the principles and application of economics, marketing and planning.

Business administration degree holders work in the management of health care, insurance, real estate and technology, as well as administrative positions in general service and retail businesses.

What Will I Learn?

- Explore business trends in various historical and cultural contexts
- Articulate strategies for building shared organizational values, attitudes and beliefs
- Recognize the impact of social and emotional intelligence on various business contexts
- Explain ethical principles and core personal values in business decision-making
- Apply change management theories and concepts in various organizational contexts
